REMARKS/ARGUMENTS

REMARKS

Applicant and his undersigned counsel wish to express their appreciation for the help and courtesies extended by the Examiner during the terminal portion of the prosecution of the above-caption application.

Hopefully the examiner will remember discussing the foregoing Amendment to claim 32 at line 4; wherein line 4 has been amended by eliminating some unnecessary punctuation and substituting the proper term for Counter Clockwise e.g. (CCW) in place of (CWW).

The issue fee will be deposited with the present Amendment After Allowance on August 3, 2005 in the mail, under separate cover.

The Request for Continued Examination (RCE) (under CFR § 1.114) and when filed will include cancelled claims leaving the allowed claims 32-35 as to the N.O.A dated Aug.3, 2005.

It's important to call to the attention of the Examiner with the issuance that the allowed claims (32-35) there is left the remaining grouping of claims as were held by examiner Mr. Vrablik (former Primary Examiner and is now

retired) the above cancelled claims will include some claims which were held allowable if several changes were made. Thus claims 12 and 23-25 were held allowable by Mr. Vrablik if rewritten or amended to overcome rejections under 35 U.S.C. 112. Claims 14, 21, 22, 26 and 28 were also held allowable; if the language is amended include all the limitation of the base claim and any intervening claims.

The undersigned attorney must confess confusion (under the new rules) as to the deadline for filing the new case containing claims mentioned in previous paragraph.

In summary it is urged that entry of this Amendment corrects several obvious but necessary grammatical errors and the change substituting CCW (counter clockwise). It is further urged that the application and the claims warrant favorable reconsideration my reason expressed in above remarks.

Respectfully submitted,

Paul F. Stutz (Reg. No. 18, 754))
